

“Get Caught Reading” is a reading motivation program developed by a team of librarians from Johnson County public and school libraries. We all know reading is essential to daily life, therefore, we are encouraging community members to “Catch” themselves, their groups, or other community members reading. Any kind of reading is encouraged, for example: Construction worker reading a blueprint, a student reading a favorite magazine, a book discussion group reading their latest choice, a radiologist reading an x-ray, etc...

All entries will be eligible to win prizes from local businesses.

Each submission will be reviewed by a committee and one individual or group will be selected for a photo shoot and interview to be made into a READ poster that will be displayed in each library and school. All selected readers will receive a copy of the READ poster.

Entries accepted November through February with one winner chosen each month.

PERSON CAUGHT READING INFORMATION

WHO was caught reading? _____

WHAT were they reading? (title / author, if applicable) _____

WHY should this person or group star in the next Celebrity READ poster?

Submitted by: _____
